BRADFORD ON AVON BOWLS CLUB

51-UP RULES

The 51-Up is played in the same way as a 4 bowl singles game and abides by much the same rules. The difference to a standard game is in the scoring, as follows:

- a. The shot bowl counts as 3 points.
- b. The second bowl counts as 2 points.
- c. The third bowl counts as 1 point.
- d. No other bowls score points.

The points are added each end for each player and the winner is the first player to score 51 points, or more.

In the event of each player reaching an equal score of 51 points (or more) at the same time, further ends are played until one player has more points than the other and is declared the winner.

In any end, if the marker cannot distinguish between 2 bowls the scoring is as follows:

- a. If the shot bowls cannot be separated then both bowls count as 3 points each and the third bowl counts as 1 point.
- b. If the second bowls cannot be separated then these bowls count as 2 points each and no points are awarded to any other bowls.
- c. If the third bowls cannot be separated then these bowls count as 1 point each.
- d. If the shot bowls cannot be separated and the third bowls cannot be separated then the shot bowls count as 3 points each and the third bowls count as 1 point each.
